

## Fact sheet 5: Donor profile example

This fact sheet provides an example of what a donor profile may look like for people considering donating sperm, eggs or embryos, or for people considering donor assisted conception treatment.

Non-identifying details about the donor are used to create a donor profile. Potential recipients review the donor profile to see whether the donor characteristics are appropriate for their needs.

### Donor profile example

Donor code	1 2 3 4 <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>
